

# What is Dropbox Enterprise?

500 million registered users around the world have brought Dropbox into over 8 million businesses to work together, anytime, anywhere. Dropbox Enterprise secures this powerful collaboration network with a robust set of visibility and control features, allowing IT to protect company data and comply with industry regulations. That's why over 200,000 leading companies have chosen Dropbox to be more productive, more secure, and more successful.

## An unrivaled network

- 500M registered users
- Inside 8M businesses
- Inside 97% of the Fortune 500
- 3.3B shared folders and links
- 140B documents stored
- 1B files saved daily

## Employees' favorite tool for work

Employees today rely on Dropbox to be more productive across any device or platform. Powerful collaboration features help them work together with colleagues and reduce friction with valued partners, vendors, or contractors.

### Productivity

#### Device and platform agnostic

Works across over 40 operating systems

#### Productivity tools

Scan and search across receipts, whiteboards, and sketches with document scanning

#### Online/offline access

Employees stay productive at home or on the go

#### Robust API

Integrations with hundreds of thousands of apps lets users do more with the tools they rely on today

#### Plenty of storage space

Keep as much data as you need on Dropbox without worrying about disk space

## Collaboration

### Enhanced collaboration with Microsoft Office

Open Dropbox documents through Office Online for live coauthoring, create and edit Office docs on mobile, and gain enhanced collaboration capabilities on desktop

### Comments and annotations

Comment on docs or on specific parts of any file, including PDFs, for more precise feedback and streamlined communication

### Version history and deletion recovery

Preview and restore previous versions of any file to easily reverse changes

### External collaboration

Work with external partners using a familiar and friendly tool, with features to securely share and track important information

“With its ease of deployment and quick adoption across the enterprise, Dropbox is proving to be just the collaboration enabler that our business units have needed for some time.”

**Mike Lacey**  
VP/CIO, Meredith Corp

## End-to-end management and control

With all employees using the same preferred solution, IT can finally keep data in one centralized place—the first step to real management and control of data. Dropbox Enterprise then adds comprehensive audit logs, centralized user and device management, granular access controls, and a robust API to provide comprehensive visibility and control across the enterprise.

## Security

### Compliance

SOC 1, 2 and 3; ISO 27001, 27017, 27018, 22301; CSA STAR; and HIPAA/HITECH support

### Encryption

Dropbox stores each file in discrete, encrypted blocks. Files are encrypted in transit and at rest.

### Durability

Annual data durability of at least 99.999999999%

## Control

### Visibility

Use extensive audit logs to track user activity, file events, sharing, and devices

### Sharing controls

Set restrictions on access and collaboration inside or outside the team

### Account capture

Speed up deployments by quickly bringing all Dropbox usage on your domain into your business account

### Remote wipe

Protect company data when devices are lost or during employee offboarding

### Dropbox Business

Leverage integrations with leading solutions providers for DLP, DRM, SIEM, EMM, identity management, data migration, and more

“We invest in technology products that simplify our employees’ work and don’t get in the way of their productivity, while also offering best in class security.”

**Chris Burgess**

Vice, President of IT, Expedia

## Team management

### Groups

Manage file access and permissions at the team or project level

### Identity management

Integrate Dropbox with SSO and Active Directory implementations

### Team folders

Manage content and access across the company using granular permissions

### Account transfer

Transfer files from one employee to another to maintain business continuity during offboarding

### Assume user

Gain visibility into specific users’ Dropbox accounts and help troubleshoot tickets

## Support from a world-class team

With assigned success managers, customized services, and ongoing support, Dropbox helps find the right solutions for your business.

### Training for end users and admins

Streamline the onboarding process with Dropbox training courses

### Assigned success manager

Unlock the full value of Dropbox with help from our customer success team

### Advanced deployment tools

Enterprise-specific tools and insights help you harness existing Dropbox usage for a more successful deployment

## Third party recognition

- [Leader in the July 2016 Gartner Magic Quadrant for Enterprise File Synchronization and Sharing](#)
- [Leader in The Forrester Wave: Enterprise File Sync and Share Platforms, Cloud Solutions](#)
- [Rated “best in class” for sync performance by IDC](#)

## Value for IT and business units

When customers deploy Dropbox Enterprise, they see impressive levels of adoption compared to other services. What does this mean? To start, they gain major security advantages when employees actively use tools that provide IT with proper visibility and control. They also see significant return on investment by eliminating legacy costs and enabling greater productivity and collaboration across business functions.

“We’ve seen a massive decrease in requests dealing with email quota sizes or files that need to be shared. They’ve dropped 80 to 90%.”

### Cost reduction

- Reduced shelfware costs, training, and support tickets
- Reduced dependency on legacy systems and hardware maintenance
- Increased flexibility and scalability of best-in-class collaboration platform

### Business transformation

- Streamlined workflows and faster time-to-market with improved collaboration
- Increase in employee productivity and satisfaction
- Closer collaboration with external partners, contractors, suppliers, and customers

**Lucas McCuistian**  
Supervisor of Server Operations, GIW
